

## INVITATION TO TENDER

# CURAÇAO AT THE CROSSROADS OF UPGRADING THE STREETLIGHT INFRASTRUCTURE

Aqualectra, together with the Government of Curaçao, is exploring the possibilities of replacing the aging Street Lighting infrastructure with superior and modern energy-efficient LED Fixtures to enjoy the many benefits that this technology offers such as a significant decrease in energy consumption and maintenance, improved control, lighting intensity and reliability.

The existing Street Lighting infrastructure is owned by the Government of Curaçao but operated and maintained by the Utility Company Aqualectra.
